RETURN RECEIPT REQUESTED

STEVE YOUNG
1669 SOUTH 580 EAST
AMERICAN FORK, UTAH 84003

Dear Mr. Young:

In response to your letter to do exploration under a notice level operation we acknowledge the receipt of a complete notice and the notice has been accepted by this office. This notice remains in effect for two years. If you wish to extend the notice you must inform the BLM in writing on or before the expiration date. The notice has been assigned Bureau of Land Management (BLM) serial number UTU-079862. Please use this serial number to refer to the notice.

Under a notice level operation you may not remove more than 1000 tons or more of presumed ore for testing. This material must not be for sale on the market.

Prior to changing your operations from those described within the notice, you are required to modify your notice with the Fillmore Field Office of the BLM.

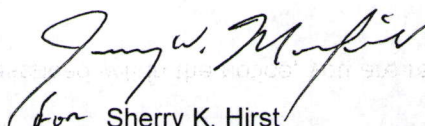

All hazardous materials associated with your operations along with information regarding their use, storage, transport, quantity, generation and disposal must be reported to the Fillmore Field Office BLM.

In the event of an unanticipated cultural resource discovery on BLM administered land, operations in the immediate area will be suspended until written authorization to proceed is issued by BLM. The discovery will be evaluated by BLM and appropriate mitigation measures will be developed in consultation with SHPO and the Proponent. The proponent will be responsible for the cost of evaluation and mitigation.

Acceptance of your notice does not serve as a determination of the validity nor ownership of any mining claim included under your notice.

If you have any questions or concerns please contact Matt Rajala, NRS-Geology, at (435) 743-3124.

Sincerely,

for Sherry K. Hirst
Field Office Manager
